

Exploring and respecting the natural environment around us.

Exploring Autumn, Winter, Spring, Summer and everything they have to offer. Making closer observations of plants and breaking them down into their different components.

EYFS

Exploring the Natural World

The Changing Seasons

Making closer observations of plants and breaking them down into their different components.

Planting seeds and caring for the different plants as they grow.

Plants

Year 1

Life Cycles

Exploring the animal kingdom by identifying common animals, understanding animal diets, and learning the parts of our bodies.

Asking questions that invite hypotheses and predictions.

Exploring natural and man-made materials, and investigating their properties.

Animals, Including Humans

Working Scientifically

Materials

Exploring how to perform fair tests: making a hypothesis, observing, recording results, and making conclusions.

Delving deeper into our animal knowledge by exploring their habitats.

Performing Tests

Year 2

Living Things and Their Habitats

Recording our data in a variety of ways: imputing into a table/graph, making observational drawings, creating diagrams.

Identifying specific animals in specific habitats, exploring how animals are adapted to their habitat, and investigating food chains.

Comparing the properties of different materials in the context of how they can be used.

Plants

Recording Data

Animals, Including Humans

Living Things and Their Habitats

Materials

Understanding what conditions plants need to be healthy.

Exploring the basic needs common to all creatures, and considering what humans need to be healthy.

Destination: Year 3 and beyond.
